CALLA ELLIOTANA, AS GROWN IN OUR FIELD

CALLA ELLIOTIANA

This is the great new Yellow Calla of marvelous beauty. Flowers are large, rich, dark golden yellow, often 4 to 5 inches across the mouth; leaves are beautifully spotted with white. While this is not a hardy bulb we are offering it in this list to call your attention to it as a most valuable bulb for Fall Planting in the greenhouse for early Spring Flowers. At Easter time they bring the very highest prices both as a cut flower, and pot plants.

Bulbs potted up during November will bloom in about 10 to 12 weeks if grown in a temperature of 55 degrees night and 65 degrees day.

By potting up a few bulbs every two or three weeks you can have them in bloom for a long time as after they form the bud you can hold back as long as wanted in a cool house.

Top Size Bulbs $3.00 per dozen; $20.00 per 100· $180.00 per 1000.

LYCORIS SQUAMIGERA
or
AMARYLLIS HALLII

A perfectly hardy Amaryllis producing beautiful pink flowers.

Description — Lycoris Squamigera produces in early spring attractive green foliage which grows until July when it ripens off and disappears, and one not familiar with its habits would think the bulb had died, but about a month later as if by magic the flower stalks spring from the ground to a height of two or three feet, developing an umbel of large and beautiful lily-shaped flowers 3 to 4 inches across and from 8 to 12 in number, of a delicate lilac pink shaded with clear blue.

Culture—As the bulb is perfectly hardy without any protection it can be planted either in the Fall or Spring but we consider Fall the best time as the bulbs will have a chance to get established before flowering time. Cover the crown about 4 inches.

Very useful for the border or among shrubbery.

Price for strong blooming bulbs $1.00 per doz. $7.00 per 100. $65.00 per 1000.

LILIUMS

FINE HEALTHY, HOME GROWN STOCK

Lilies are among the finest of our garden flowers and take very kindly to cultivation. They are useful for planting in the border, among shrubbery, or in masses when striking effects are desired. Most of the bulbs we offer are grown on our own grounds and can be relied upon for health, vigor and free growing qualities.

Helianthi, White-Tubered Variety

This new hybrid plant is of the Sunflower and Artichoke family, producing showy golden yellow flowers like Cosmos blossoms in endless profusion and immense quantities of fleshy tubers, somewhat after the style or Sweet Potatoes. It stands both heat and cold and will thrive anywhere in any soil or climate, and as a flower is very showy in any position.

New Pink-Tubered Variety

We grew this last season for the first time and find it in every way superior to the other sort. Flowers larger and finer, in dense masses fully as showy as Rudbeckia Golden Glow. It begins to bloom just one month earlier than the White-tubered. Roots short, thick and rounded at the end, plump, crisp and sweet. One of the finest vegetables and most showy flowers of our garden. Fine tubers
